WHAT IS KIDCREATE STUDIO?

Specializing in children's art classes, camps and art themed birthday parties, Kidcreate Studio is an art studio just for kids. At Kidcreate, children will create fridge-worthy masterpieces, learn art concepts, and experiment with many different art materials.

Founder, Lara Olson, started Kidcreate Studio after being discouraged by the limited art exposure her son was receiving at school. In art class, he found tremendous joy in the creative process and none of the frustrations he was experiencing in some of his other classes.

Lara understood this. She too gravitated toward art as a child. Lara believed in the power of art to teach, inspire and build self-esteem. She also understood that art makes learning fun and a fun learning environment was exactly what her son needed. Lara started a quest for art classes for her son. She searched in vain for an art studio designed just for kids that combined quality art education with a fun kid-friendly environment. Finding nothing that met her requirements, she decided to create it!

Kidcreate was born!
