AREAS TARGETED:

- Rockville, North Bethesda, Gaithersburg

SIZE REQUIREMENTS

- 1,200 - 2,000 SF

WHAT IS MATCHA CAFÉ MAIKO?

Matcha Cafe Maiko opened its first store in Hawaii with the goal of providing customers quality matcha with the authentic taste.

Uji is a place in the southern part of Kyoto and is renowned for making top-notch, highly nutritious matcha. The area is ideal as there is plenty of mist, which protects against frost from degrading product quality. It's the best place in Japan and they do whatever's necessary to keep that reputation intact.

Our matcha comes from Harima Garden, which has been in operation since 1858. Their product is high quality and delivers a great aroma and outstanding taste.

Another key point we at Matcha Cafe Maiko emphasize is that all of our products, including the ice cream, sponge cakes, waffle cones, and even the adzuki bean toppings, are made in-house.

In the US, it's rare for products not to be made in factories and we feel that there are concerns and problems with additives.

We take product quality and safety very seriously and all our products are very carefully selected to ensure quality taste while at the same time delivering satisfaction for everyone.
